As per independent claims 1, 13, and 25, the prior art of record does not teach nor fairly suggest generating in the design-time environment a class definition defining a custom class having the required class functionality and the specified elective class functionality, wherein objects belonging to the custom class are capable of being instantiated from the runtime environment independent of the design-time environment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
